---

Thanks for the feedback. I'll let you know before we do anything substantial. All were doing for the next couple weeks is clearing the site, setting up the trailer and utilities, and perhaps gauging the tanks.

Steve:

Sorry, I forgot to give my feedback on the report. The format looks fine to me. You may want to include a projected schedule with dates of the activities that are planned so that we can determine appropriate times to visit the site. As you begin the demo of tanks, equipment, and buildings please include a figure which shows what activities have been done. As we go through the action, there may be additional things that Rafael and I may want you to add to subsequent monthly reports.

Thanks

I haven't heard from either of you about the format of the monthly update. Is the format acceptable?
